OBERFLÄCHE

Finish / Finition / Finitura

NATUR GEÖLT EASY CARE

Unsere easy care Produkte werden mit fertig eingepflegter Oberfläche ausgeliefert. Das bedeutet, der Boden muss nach der Verlegung nicht mehr eingepflegt (geölt) werden, und ist somit nach der Verlegung sofort begeh- und benutzbar! Die weiterentwickelte natur geölte Oberfläche easy care liefert eine satte, widerstandsfähige Oberfläche, und zeigt außerdem von Anfang an die gewünschte Optik, wie sie sonst erst der eingepflegte Boden bietet.

NATUR GEÖLT PRO CARE

Ersteinpflege notwendig. Durch die regelmäßige Pflege mit Admonter Clean & Care, sowie mit Admonter Pflegeöl bildet sich eine natürliche Patina, die für gute Widerstandsfähigkeit sorgt.

MATT LACKIERT

Durch die lackierte Oberfläche erscheinen die Dielen dezent matt. Die Poren des Holzes sind geschlossen. Damit ist es äußerst widerstandsfähig, und völlig unkompliziert in der Pflege.

GESEIFTE OBERFLÄCHE

Geschmeidiges Holz, das man gar nicht aufhören möchte zu berühren. Matte Töne, die gerade in ihrer Gedecktheit das Interesse auf sich ziehen. Und ein Hauch von zeitloser Patina, wie ihn nur ein Admonter Naturholzboden atmet.

NATURAL OILED EASY CARE

Our easy care products are delivered prefinished. This means that the floor does not have to be oiled after installation, and can be used and walked on immediately after installation! The new natural oiled easy care finish provides a rich, durable surface, and also has the desired look from the beginning, as otherwise only floors with an additional oil coating offer.

HUILÉ NATUREL EASY CARE

Nos produits easy care sont livrés avec une finition finie. Cela signifie que le parquet ne doit plus être huilé après la pose et il est possible de marcher immédiatement sur celui-ci une fois posé! La nouvelle finition huilé naturel easy care donne une surface saturée et résistante, et offre de plus dès le début l'aspect visuel souhaité que pourrait offrir le parquet entretenu.

OLIATO NATURALE EASY CARE

I nostri prodotti easy care sono forniti con finitura prefinita. Ciò significa che dopo la posa il pavimento non deve più essere oliato e pertanto è subito calpestabile e utilizzabile! La nuova finitura oliata naturale easy care è saturata e resistente e mostra fin dall'inizio l'aspetto desiderato, proprio come un pavimento oliato dopo la posa.

NATURAL OILED PRO CARE

Natural oiled easy care Pro Care floors require a post-installation oil before they can be used.

HUILÉ NATUREL PRO CARE

Huilage initial nécessaire. Les soins réguliers avec Admonter Clean & Care, ainsi qu'avec l'Huile d'entretien Admonter, créent une patine naturelle, ce qui garantit de bonnes sensations.

OLIATO NATURALE PRO CARE

Sui prodotti Pro care deve essere stesa la prima mano di olio. Ciò significa che dopo la posa, il pavimento deve essere rifinito (oliato).

MATT LACQUERED

The application of matt lacquer will entirely seal the pores of the wood. The matt lacquered finish is very durable and absolutely uncomplicated in care & maintenance.

VERNIS MAT

Grâce à l'application d'une vitrification le parquet obtient une apparence mate et les pores du bois seront colmatés. C'est pourquoi cette finition est résistante et facile à entretenir.

VERNICIATO OPACO

Con uno strato di vernice opaca, i pori del legno vengono completamente chiusi. Così il pavimento diventa molto resistente e non ci sono assolutamente problemi di manutenzione.

SOAPED FINISH

A Soaped Finish Floor is one you won't want to stop touching! This finish provides colours that draw your attention through their matt shades and timeless patina. This special finish requires frequent maintenance.

PARQUET AVEC UNE FINITION SAVONNÉE

Bois savonné qu'on ne cesserait de toucher. Des couleurs mates. Un souffle de patine intemporelle dont seul un parquet Admonter en bois naturel a le secret.

PAVIMENTI CON FINITURA SAPONATA

Legno saponato, che non smettereste mai di toccare. Colori opachi che proprio per la loro sobrietà attirano l'attenzione. E un tocco di patina senza tempo, che potrete respirare solo con pavimenti naturali di Admonter.

ALLGEMEINE HINWEISE:

Diese Sortierbeispiele stellen grundsätzlich die Sortierungskriterien des Admonter Naturbodens dar. Admonter Naturboden ist wie der Name schon sagt, ein natürlich gewachsenes Produkt, somit sind Abweichungen in Struktur und Farbe möglich. Aktuelle Dimensionen und Sortierbeschreibungen entnehmen Sie bitte unseren Prospekten bzw. sind diese auch online unter www.admonter.at abrufbar. Wichtig: Beachten Sie bitte, dass sich auch Muster mit der Zeit durch UV-Bestrahlung farblich verändern; das liegt in der Natur der Sache. Vor der endgültigen Verlegung die Dielen auflegen und unbedingt vorsortieren! Durch die drucktechnische Wiedergabe kann es zu farblichen Abweichungen kommen. Hergestellt in Österreich. Holzherkunft: Europa, ausgenommen: Amerikanische Nuss, Amerikanische Kirsch. Alle Angaben ohne Gewähr.

GENERAL NOTES:

These grading examples basically show the grading criteria of Admonter Natural Floors. Admonter Natural Floor as the name implies, is a naturally grown product so that slight deviations in structure and colour are possible. Current dimensions and grading descriptions are shown in our brochures and catalogues and on our website www.admonter.at. Attention: Please note that samples can change their colour after a certain time with exposure to light. This is a completely natural phenomenon. Prior to installation, it is absolutely necessary to spread out the floorboards and pre-sort them! Due to the reproduction in print colour variations can occur. Produced in Austria. Wood origin: Europe - except American Walnut, American Cherry. All information without guarantee.

INFORMATION GÉNÉRALE:

Ces exemples de classement illustrent de façon générale les critères de sélection du Admonter Parquet Naturel. Comme son nom l'indique, ce parquet est le résultat d'un processus naturel. Ce qui explique la présence, éventuelle et souhaitable, de légères différences dans les structures et coloris. Les dimensions actuellement disponibles figurent dans nos brochures et catalogues et également sur notre site internet www.admonter.at. Attention: Les échantillons peuvent changer de couleur après un certain temps d'exposition à la lumière. C'est un phénomène naturel qu'il faut prendre en compte! Avant la pose définitive: Disposer les lames au sol en les triant pour définir le meilleur assemblage final. L'impression papier peut causer des différences importantes sur les couleurs. Toutes ces photographies sont donc présentées à titre indicatif seulement. Produit en Autriche. Origine du bois: Europe. Exceptions: Noyer U.S., Merisier U.S.

INFORMAZIONI GENERALI:

Questi esempi fotografici rappresentano soltanto le varie possibilità di scelta. I pavimenti in legno naturale Admonter, come dice la parola stessa, sono un prodotto naturale e sono quindi possibili variazioni di lavorazione e colore. Per maggiori informazioni sulle dimensioni disponibili e sulle scelte, vi consigliamo di consultare i nostri cataloghi o il nostro sito internet www.admonter.at. Attenzione: Con il passare del tempo i campioni esposti alla luce possono cambiare colore: è un fenomeno assolutamente naturale! Prima della posa in opera è importante aprire i pacchi e scegliere le tavole. A causa di caratteristiche tecniche legate alla stampa, il colore del legno riportato nelle fotografie può subire variazioni rispetto all'originale. Tutte le immagini riportate sono da considerarsi puramente indicative e non sono garanzia di resa del prodotto. Prodotto in Austria. Origine del legno: Europa. Eccezioni: Noce, Ciliegio.
